Stolen Vehicle Protection

Stolen Vehicle Protection

With over 30 years of experience monitoring, protecting and recovering vehicles across the UK and Europe, you can trust that your vehicle is in safe hands with a Trackstar system.

Secure S5 Tracker

The Trackstar Secure S5 is a top-of-the-line tracking system that offers the highest level of protection for your vehicle. With its Thatcham S5 approval and advanced driver recognition tags, the system can quickly identify whether an unauthorised driver is behind the wheel and alert you and our team.

The Trakstar Secure S5 is an advanced vehicle security system that comes with driver recognition technology and an increased number of pre-theft alert features. The My Trackstar app makes it easy to update your details, report a theft, set geofences and disable false alarms. Additionally, the system has speedy recovery features that ensure your vehicle is located and retrieved quickly in the event of a theft.

Benefits

- Recognised by all insurers for any vehicle
- Fully Insurance approved S5 Thatcham vehicle tracker
- 24/7 monitoring control room
- ADR (Automatic Driver Recognition) system
- Suitable for all makes and models
- Police Approved
- Unique Cross-Border Globalwatch System
- System of Choice for the Largest OEM Manufacturers

Vehicle tracking at the touch of a button

The MyTrackstar app is your companion to your Trackstar Stolen Vehicle Tracker. Have you forgotten where you've parked? The MyTrackstar app will display your vehicle's last known location so you can find it easily. You can also view your past journeys and even set geofences to alert you if your vehicle is on the move.

The MyTrackstar app also uses separate technology compared to the Trackstar system, meaning that our emergency desks have priority access to the vehicle's location at all times, regardless of mobile internet coverage. The app is available for iOS and Android.
